

CERTIFICATION OF MATERIALS AND CONCRETE MIXTURE

Location _____ State _____
Watershed _____ Contract No. _____
Structure _____ Class of concrete _____

Materials

Cement: type _____
(brand name, manufacturer)

Aggregates:

Fine _____ Bulk Sp. Gr. (SSD) _____
(kind, supply, source)

Coarse _____ Bulk Sp. Gr. (SSD) _____
(kind, supply, source)

Air-entraining agent _____
(brand name, manufacturer)

Other admixtures _____
(brand name, manufacturer)

Mixing water source _____

Batch per cubic yard

Cement _____ lb Water _____ gal

Aggregates (SSD): fine _____ lb coarse _____ in. _____ lb
_____ in. _____ lb

Air-entraining agent _____ oz Air content _____ %

Other admixtures: kinds _____ amounts _____

Mix designed by _____
(name of laboratory, ready-mix plant, or project engineer)

Remarks _____

I certify that the above mentioned materials and mix for the specified class of concrete meets the requirements of the contract and will be furnished for the work.

Contractor _____

Signature _____

Date _____ Title _____

Note: A revised copy of this certification shall be furnished for each change in materials or mix proportion that may occur during construction.
